Warren Irrigation
c/o Mr. Maurice J. Shoen
R.F.D. No. 2
Ogden, Utah

Gentlemen:

Re: Weber River

The operation of your reservoir on the lower Weber River during 1963 completely submerged the meter that measures water from Four Mile Reservoir into your Weber River Reservoir. This submerging makes it impossible for the Weber River Water Commissioner to give you proper credit for pumping natural flow water instead of charging excess pumped water against reservoir credits.

To insure maximum delivery of all water due you, will you kindly have this meter installation modified before the 1964 irrigation season begins so that the commissioner will be able to read this meter at all times.

Thank you for your cooperation in this matter.

Yours very truly,

Wayne D. Criddle
STATE ENGINEER

DCH/vh
